- Css
- Flask
- Django
- Linux
- RestFul Api

Language

English

Turkish

Experience

2021 -

Mepsan Oil Equipment C.O. | İzmir

Front-End Developer, Software Engineer

As a part of the team who has to develop next-generation cash registers for fuel stations; I developed all administrative screens for the cash register's maintenance. Those pages have dynamic tables, data manipulations, and role-based user authentication systems with jwt tokens.

2020 - 2021

Elkom Electric | İzmir

Electrical-Electronic Engineer

I was responsible for maintaining and supervising high-power transformers of large-scale industrial plants. By monitoring and regulating reactive power consumption, I provide an advantage for the customer; also I market this advantage to the customer as a sales engineer.
